

## 1. 列表组件 datagrid

### 1.1 创建一个grid.html

```
<html>

<head>
  <meta charset="utf-8" />

</head>

<body>

</body>

</html>
```

### 1.2 引入easyUI的资源文件

```
<script type="text/javascript" src="jquery-easyui-1.3.3/jquery.min.js"></script>
<link rel="stylesheet" type="text/css" href="jquery-easyui-1.3.3/themes/default/easyui.css">
<link rel="stylesheet" type="text/css" href="jquery-easyui-1.3.3/themes/icon.css">
<script type="text/javascript" src="jquery-easyui-1.3.3/jquery.easyui.min.js"></script>
<script type="text/javascript" src="jquery-easyui-1.3.3/locale/easyui-lang-zh_CN.js"></script>
<script type="text/javascript" src="jquery-easyui-1.3.3/validate.js"></script>
```

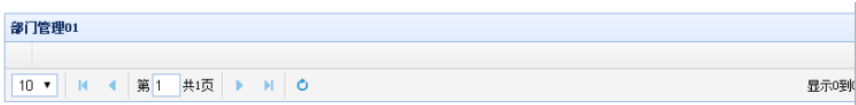

### 1.3 绘制表格组件

Html:

```
<table id='grid0' title="部门管理01" class="easyui-datagrid"
fitColumn="true" pagination="true"
rownumbers="true" url="xxx.php" fit="false" toolbar="#toolbar">

</table>
```

效果:

```
<thead>

<tr>

<th field="cb" checkbox="true" align="center"></th>
<th field="deptid" width="80" align="center">部门编号</th>
<th field="deptname" width="120" align="center">部门名称</th>
<th field="createtime" width="180" align="center">创建时间</th>
<th field="updatetime" width="180" align="center">最后更新时间</th>

</tr>

</thead>
```

代码:

//查询部门表中的数据

```
$resultset = mysql_query("select * from tm_dept where 1=1 limit $start,$rows") or die(mysql_error());

$list = array();
$count = 0;

while($row = mysql_fetch_array($resultset)){
    $list[$count++] = $row;
}

$data = array();
$data["rows"] = $list;

$resultset = mysql_query("select count(*) as total from tm_dept") or die(mysql_error());
while($row = mysql_fetch_array($resultset)){
    $data["total"] = $row["total"];
}

echo json_encode($data);
```

## 2. 按钮组件 linkbutton

渲染按钮的方法，给一个a标签加上class为easyui-linkbutton即可。

例子:

```
<a href="javascript:openUserAddPage()" class="easyui-linkbutton" iconCls="icon-add" plain="true">新增用户</a>
```

```
<div id="toolbar">
```

```
    <a href="javascript:openAddDialog()" class="easyui-linkbutton" iconCls="icon-add" plain="true">新增部门</a>
    <a href="javascript:openModifyDialog()" class="easyui-linkbutton" iconCls="icon-edit" plain="true">编辑部门</a>
    <a href="javascript:del()" class="easyui-linkbutton" iconCls="icon-remove" plain="true">删除部门</a>
```

```
</div>
```

## 3.右下角弹窗组件 \$.messager

```
$.messager.show({
    title : '系统提醒' ,
    msg : "<font color='green'>恭喜，删除成功！</font>",
    showType : 'slide' ,
    timeout : 5000
});
```
