【406错误】 The resource identified by this request is only capable of generating responses with characteristics not acceptable according to the request "accept" headers.

今天遇到一个奇怪的错误，关于Springmvc的，我明明在Controller方法中写了@ResponseBody，返回一个Map，结果报了406错误。
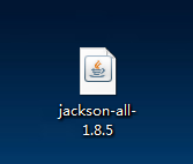

HTTP Status 406 -

type Status report

message

description The resource identified by this request is only capable of generating responses with characteristics not acceptable according to the request "accept" headers.

Apache Tomcat/7.0.68

结果发现，少了一个jar包：

jackson-all-1.8.5

加上去就没事了。
